> “Date Last Seen” Guidance Updated

The Part B MAC at-risk foot care coverage policies list systemic diagnoses that may play a role in coverage. Some of these diagnoses are marked with an asterisk. The asterisk indicates that the patient needs to have been seen by the provider who is managing (or in some cases, diagnosed) that condition within a certain window of time. That window of time in which provider types can satisfy this requirement differs based on the Part B MAC. APMA shares the current policies for each Part B MAC. | [READ MORE >](#)
